UNNAMED WETLAND

PUBLIC ROAD OR WORK AFFECTING FLOWS
AREAS OF POSSIBLE WETLAND VALUE

uw2, uw4, 1330(part), 1390(part), 1407(part), 1408, 1409, 1410, 1411, 1421, 1422, 1428(part), 1434, Wilsons Lake, Old Waddy Creek.
Areas of possible wetland value are areas of formerly functional wetlands, that have been blocked from flooding because of agricultural or transport development, and are situated outside the design floodway. The ecological value of these areas has been reduced but options for their future rehabilitation may be possible.

THE FLOODWAY DESIGN SHOWN ON THIS FIGURE IS NOT AN APPROVAL FOR THE CONSTRUCTION OR ALTERATION OF FLOOD CONTROL WORKS NOR IS IT AN APPROVAL FOR EXISTING UNLICENSED FLOOD CONTROL WORKS.
