Water allocations for Nambucca Valley water users

DPI Water today announced available water determinations for water users in the Nambucca Unregulated and Alluvial Water Sources for the remainder of the 2016/17 water year, following commencement of the *Water Sharing Plan for the Nambucca Unregulated and Alluvial Water Sources 2016* on 30 September 2016.

Water sources covered by this water sharing plan include the Coastal Nambucca and North Arm Nambucca rivers, Buckrabendinni, Deep, Oyster, Missabotti, South and Warrell creeks, Taylors Arm, as well as the Coastal Nambucca floodplain alluvial groundwater source.

Domestic and stock access licence holders, excluding those in the Coastal Nambucca floodplain alluvial groundwater source, will receive an allocation of 200 per cent of entitlement, in line with the commencement rules of the water sharing plan.

Domestic and stock access licence holders who access supplies from the Coastal Nambucca floodplain alluvial groundwater source will receive an allocation of 100 per cent of entitlement.

All local water utility access licence holders who access supplies from the Nambucca unregulated and alluvial water sources will receive an allocation of 100 per cent of entitlement.

Unregulated river access licence holders will receive an allocation of 2 megalitres per unit share of entitlement, also in line with the commencement rules of the water sharing plan.

Aquifer access licence holders who access supplies from the Nambucca unregulated and upriver alluvial water sources, which excludes the Coastal Nambucca floodplain alluvial groundwater source, will receive an allocation of 2 megalitres per unit share of entitlement, as per the plan commencement rules.

Aquifer access licence holders who access supplies from the Coastal Nambucca floodplain alluvial groundwater source will receive an allocation of 1 megalitre per unit share of entitlement.
