

Landholders with Great Artesian Basin bores that have uncontrolled flow, or are failing and were constructed before 1965, can apply for efficient, piped water supply systems for improved drought resilience.

Applications close 27 March 2020. Please note that applying does not guarantee funding.

## Section A: Bore details

**Table 1. Information about the bore**

About the bore	Answer
GW number (if known):	
Licence number:	
Bore name:	
Property name and address:	
Headwork condition?	
Access to bore (ability to reach bore):	
Directions to bore:  Please provide mud map	
Length of existing bore drains (km):	
Length of existing pipelines (km):	

Please attach photo of bore head and photo of access to bore

### Section B: Owner details

**Table 2. Information about the owner**

About the owner	Answer
