Your submission

Which consultation paper does your submission relate to?: Water take measurement and metering policy

Enter text below or upload a document: I believe that every water user is to be fitted with a water meter. Once the water license allocation is met, there shall be no more access. No carry overs, no extra 500% carry over or unrestricted, the affects of this is what is devastating the Lower Darling Basin. Over allocation and non compliance. Meters that are over allocation - perpetrators should have license removed.

File upload: No file uploaded
