

Snowy Water Licence variation schedule, 1 November 2019

1. Definitions and interpretation

Section	Page number (amended agreement)	Proposed variation
(3) Agreed Annual Release	1	After ‘... adjusted under’, delete ‘clause 13.1’ and insert instead ‘clause 13.2’ to read: ‘Agreed Annual Release’ means the Required Annual Release for either Development in any Water Year as adjusted under clause 13.2 of Schedule Four;
(43) Mowamba borrowings account	5	Delete entire definition and insert instead ‘Not used’
New sub-clause	6	After sub-clause (55) ‘ Prescribed Event ’, insert new subclause: (55A) ‘ Public AWOP ’ means a summary of the Annual Water Operating Plan which contains the information required under clause 8.3(6) to be prepared annually by the Licensee and approved by the Ministerial Corporation under clause 8 ;

Section	Page number (amended agreement)	Proposed variation
(56) Recovery Amount	6	<p>After 'for each Development with respect to each Month' insert 'in a Water Year', and</p> <p>After 'for that Development calculated as at the commencement of ...', delete 'the Month immediately preceding that Month' and insert instead 'March in the previous Water Year'</p> <p>to read:</p> <p>'Recovery Amount' means, for each Development with respect to each Month in a Water Year, the volume (if any) by which the Dry Inflow Sequence Volume for that Development calculated as at the commencement of that Month under clause 8 of Schedule Four is less than the volume of the Dry Inflow Sequence Volume for that Development calculated as at the commencement of March in the previous Water Year under clause 8 of Schedule Four;</p>
New sub-clause	11	<p>After sub-clause 102 'Victoria', insert new subclause:</p> <p>(102A) 'Water Access Licence Register' means the water access licence register kept by the Minister administering the <i>Water Management Act 2000</i> (NSW), under section 71 of the <i>Water Management Act 2000</i> (NSW);</p>

6. Outlet at Tantangara Dam and Snowy Montane Rivers Works

Section	Page number (amended agreement)	Proposed variation
6.1(1)(a) Outlet at Tantangara Dam and Snowy Montane Rivers Works	16	<p>Delete subclause (1)(a). 'construction of the outlet at Tantangara Dam referred to in clause 20.1 of Schedule Three' and insert 'not used'.</p>

7. Licensee's water rights

Section	Page number (amended agreement)	Proposed variation
7.2 (2) Local Water Extraction and Riparian Rights	16	<p>After 'under the <i>Water Act 1912</i> (NSW)' insert 'or the <i>Water Management Act 2000</i> (NSW)'; and</p> <p>After 'stored by the Licensee under this Licence as set out in', delete 'in section 32 of the Act and listed in Schedule Five' and insert instead:</p> <ul style="list-style-type: none"> a) section 32 of the Act; b) the Water Access Licence Register; and c) in the water sharing plans for the following water sources: <ul style="list-style-type: none"> i. Snowy Genoa Unregulated and Alluvial Water Sources; ii. Murrumbidgee Unregulated River Water Sources; and iii. Murray Unregulated River Water Sources. <p>to read:</p> <p>Each of the rights conferred on the Licensee under clause 7.1 is subject to:</p> <ul style="list-style-type: none"> 1) the rights of occupiers of riparian land under section 52 of the <i>Water Management Act 2000</i> (NSW); and 2) the rights of persons authorised under the <i>Water Act 1912</i> (NSW) or the <i>Water Management Act 2000</i> (NSW) to take and use water that is authorised to be collected and stored by the Licensee under this Licence as set out in: <ul style="list-style-type: none"> a) section 32 of the Act; b) the Water Access Licence Register; and c) in the water sharing plans for the following water sources: <ul style="list-style-type: none"> i. Snowy Genoa Unregulated and Alluvial Water Sources; ii. Murrumbidgee Unregulated River Water Sources; and iii. Murray Unregulated River Water Sources.

8. Annual water operating plans

Section	Page number (amended agreement)	Proposed variation
8.3 Contents of Annual Water Operating Plan	18	<p>After sub-clause (1), insert new subclause to read:</p> <p>1A) the expected Required Annual Release for each Development, calculated by the Licensee:</p> <ul style="list-style-type: none"> a) utilising the Snowy–Murray Development Annual Allocation or the Snowy–Tumut Development Annual Allocation as relevant; b) utilising any previous year’s Required Annual Release Pre-Release Volume; c) utilising any other volumes specified in clauses 12.1 and 12.2 of Schedule Four, that the Licensee is able to reasonably anticipate and quantify; and d) disregarding any volumes specified in clause 12.1 and 12.2 of Schedule Four that the Licensee is unable to reasonably anticipate and quantify.
8.3 Contents of Annual Water Operating Plan	18	<p>In subclause 8.3(2), after ‘details on a quarterly basis of the’, delete ‘likely range of forecast water releases’ and insert instead ‘guaranteed minimum water releases, subject only to a Prescribed Event’ to read:</p> <ul style="list-style-type: none"> 2) details on a quarterly basis of the guaranteed minimum water releases, subject only to a Prescribed Event, from each of the Developments having regard to: <ul style="list-style-type: none"> a) Required Annual Releases; b) divertible and non-divertible Snowy Scheme inflows, taking account of likely inflow scenarios; and c) power system operations;

8.3 Contents of Annual
Water Operating Plan

19

After subclause 8.3(4), **insert new subclauses** to read:

- 5) any agreements by the Water Consultation and Liaison Committee regarding matters relevant to the Annual Water Operating Plan
- 6) a summary of the Annual Water Operating Plan. This summary will be released to the public as the '**Public AWOP**' in accordance with clause 8.13B and must include:
 - a) the annual guaranteed minimum water release for the Water Year, subject only to a Prescribed Event, from each of the Developments having regard to:
 - i. Required Annual Releases;
 - ii. divertible and non-divertible Snowy Scheme inflows, taking account of likely inflow scenarios; and
 - iii. power system operations;
 - b) the expected Required Annual Release for each Development, calculated in accordance with clause 8.3(1A);
 - c) the release volumes that under Schedule Three are required to be included in the Annual Water Operating Plan;
 - d) any agreements (other than those excluded by clause 8.3(7)) by the Water Consultation and Liaison Committee regarding matters relevant to the Annual Water Operating Plan; and
 - e) such other information with respect to water releases and diversions as:
 - i. the Licensee thinks fit after consultation with the Water Consultation and Liaison Committee; and/or
 - ii. (other than those excluded by clause 8.3(7)) the Ministerial Corporation determines that it reasonably requires having regard to the purpose of this Licence.
- 7) The information specified in clause 8.3(6)(d) and clause 8.3(6)(e)(ii) does not include information that the Licensee has informed the Ministerial Corporation will, if publicly released:
 - a) diminish the competitive commercial value of any information to any person; or
 - b) otherwise constitute a disclosure of commercial-in-confidence information that would not be required to be disclosed under the *Government Information (Public Access) Act 2009* (NSW);unless the Licensee and Ministerial Corporation have agreed that the information should be disclosed

Section	Page number (amended agreement)	Proposed variation
New clause	22	<p>After clause 8.13A Finalisation of Annual Water Operating Plan insert new clause to read:</p> <p>8.13B Release of Public AWOP</p> <p>As soon as reasonably practicable after the Ministerial Corporation approves the Annual Water Operating Plan, the Licensee must make the Public AWOP publicly available on its website or as otherwise agreed by the Licensee and the Ministerial Corporation.</p>
8.16 Amendment of Annual Water Operating Plan	23	<p>After subclause 8.16(3) insert new subclause to read:</p> <p>4) If under clause 8.16(2):</p> <ul style="list-style-type: none"> a) the Ministerial Corporation agrees to a proposed amendment to the Annual Water Operating Plan to permit the release of a volume of water from either of the Developments which is less than the lower limit referred to in subclause 8.14(2); b) the Water Consultation and Liaison Committee advises the Licensee that the proposed amendment to the Annual Water Operating Plan will reduce available water determinations in the relevant downstream water supply system; and c) the information is not information that the Licensee has informed the Ministerial Corporation will, if publicly released: <ul style="list-style-type: none"> i. diminish the competitive commercial value of any information to any person; or ii. otherwise constitute a disclosure of commercial-in-confidence information that would not be required to be disclosed under the <i>Government Information (Public Access) Act 2009</i> (NSW), <p>then the Licensee must, as soon as reasonably practicable after the Ministerial Corporation approves the amendment to the Annual Water Operating Plan, make publicly available on its website an update to the Public AWOP which reflects this amendment.</p>

Section	Page number (amended agreement)	Proposed variation
New clause	24	<p>After clause 8.16 Amendment of Annual Water Operating Plan insert a new clause 8.16A to read:</p> <p>8.16A Additional Information to Annual Water Operating Plan</p> <p>If, at any time during a Water Year, the Ministerial Corporation requests that the Licensee provide details on a quarterly basis of the likely maximum releases from one or both of the Developments, the Licensee must, within 28 days:</p> <ol style="list-style-type: none"> 1) calculate, for each remaining quarter in that Water Year, the likely maximum releases from each of the Developments having regard to: <ol style="list-style-type: none"> a) Required Annual Releases; b) divertible and non-divertible Snowy Scheme inflows, taking account of likely inflow scenarios; and c) power system operations; 2) provide details, for each remaining quarter in that Water Year, of the likely maximum releases from one or both of the Developments (as requested by the Ministerial Corporation) to the Ministerial Corporation for provision to each member of the Water Consultation and Liaison Committee.

10. Reviews of licensee’s obligations

Section	Page number (amended agreement)	Proposed variation
10.8 Variation of Schedule Five	29	Delete entire clause and insert 'Not Used'.

Schedule Two: Water management works

2. Dams and reservoirs

Section	Page number (amended agreement)	Proposed variation
Tantangara Dam	45	<p>After River Outlet Works: one 1.22 m outlet conduit', insert 'with intake structure and selective offtake capable of releasing water from above the thermocline' to read:</p> <p>River Outlet Works: one 1.22 m outlet conduit with intake structure and selective offtake capable of releasing water from above the thermocline with a capacity of 28.3 m3/s.</p>
Jindabyne Dam	47	<p>After River Outlet Works: 0.91 m diameter pipe siphon under spillway to provide discharge up to 0.6 m3/s in the river below the dam', insert 'Intake structure and selective offtake capable of releasing water from above the thermocline, 3.6 m diameter tunnel, 2 cone valves, submerged discharge valve and small hydro with a combined capacity of 58 m3/s.' to read:</p> <p>River Outlet Works: 0.91 m diameter pipe siphon under spillway to provide discharge up to 0.6 m3/s in the river below the dam. Intake structure and selective offtake capable of releasing water from above the thermocline, 3.6 m diameter tunnel, 2 cone valves, submerged discharge valve and small hydro with a combined capacity of 58 m3/s.</p>

Schedule Three: Increased flow requirement

Part One: General requirements with respect to increased flows

1. Treatment of annual allocations

Section	Page number (amended agreement)	Proposed variation
1.3 Licensee to Adjust Accounts for Snowy River Annual Allocation	50	Delete entire clause and insert instead 'Not Used'.

3. Licensee to maintain water accounts

Section	Page number (amended agreement)	Proposed variation
3.1(1) Licensee to Maintain Water Accounts	51	Delete subclause 3.1(1) and insert instead 'Not used;'.

4. Ministerial Corporation to notify licensee

Section	Page number (amended agreement)	Proposed variation
4.1(3) Ministerial Corporation to Notify Licensee of Water Accounting Adjustment	51	Delete subclause 4.1(3) and insert instead 'not used;'

Part Two: Snowy River Increased Flows generally

6. Licensee to construct outlet at Jindabyne Dam

Section	Page number (amended agreement)	Proposed variation
6. Licensee to construct outlet at Jindabyne Dam	52	Delete 'Construct' and instead insert 'Operate' to read: 6. Licensee to operate outlet at Jindabyne Dam
6.1 Licensee to Construct Outlet at Jindabyne Dam	52	Delete entire clause and insert instead 'Not Used'.
6.2 Outlet Specifications	52	Delete entire clause and insert instead 'Not Used'.

Section	Page number (amended agreement)	Proposed variation
6.3 Where Licensee Does Not Construct Outlet by Due Date	53	Delete entire clause and insert instead 'Not Used'.
6.4 Cost of Construction of Fish Ladders	53	Delete entire clause and insert instead 'Not Used'.
6.5 Operation of Outlet at Jindabyne Dam	53	<p>Delete 'The outlet constructed by the Licensee under clause 6.1 of this Schedule 3' and insert instead 'The Jindabyne Dam River Outlet Works specified in the table in clause 2 of Schedule 2' to read:</p> <p>The Jindabyne Dam River Outlet Works specified in the table in clause 2 of Schedule Two must be operated by the Licensee to selectively withdraw water from the near surface horizon of the reservoir for the water being released for riparian flows and Snowy River Increased Flows made under Part Two of this Schedule Three.</p>

7. Date of commencement of Snowy River Increased Flows

Section	Page number (amended agreement)	Proposed variation
7.3 Provision where Snowy River Annual Allocation Exceeds Balance in Mowamba Borrowings Account During First Three Years	54	Delete entire clause and insert instead 'Not Used'.

Part Three: Snowy River Increased flows from Mowamba River and Cobbon Creek

10. Mowamba Borrowings Account

Section	Page number (amended agreement)	Proposed variations
10. Mowamba Borrowings Account	55	Delete 'Mowamba Borrowings Account' and instead insert 'Not Used'
10.1 Debit to Mowamba Borrowings Account	55	Delete entire clause and insert instead 'Not Used'.
10.2 Allocation of Mowamba Borrowings Account Balance to the Developments	55	Delete entire clause and insert instead 'Not Used'.

Part Four: Snowy River increased flows targeted from Jindabyne Dam

12. Obligations of the licensee with respect to releases from Jindabyne Dam

Section	Page number (amended agreement)	Proposed variations
12.2 Assessing Compliance by the Licensee	56	<p>At the end of subclause 12.2(1), delete the word ‘and’, and in subclause 12.2(2):</p> <ul style="list-style-type: none"> • after ‘with respect to the obligations relating to’, delete ‘daily and’ and insert ‘the’ • after ‘Monthly’, delete ‘releases’ and insert ‘and Annual Volumes’ • after ‘having regard to all of the’, delete ‘daily releases and’ • after ‘Monthly releases’, delete ‘respectively’ • after ‘over the whole of the relevant Water Year’, insert ‘based on hydrographically corrected data; and’ • insert subclause (3) to read: <ol style="list-style-type: none"> 3) with respect to the obligations relating to Daily Volumes: having regard to all of the daily releases made by the Licensee from Jindabyne Dam over the whole of the relevant Water Year, based on operational data collected by the Licensee

Section	Page number (amended agreement)	Proposed variations
Assessing Compliance by the Licensee continued	56	<p>so that 12.2 Assessing Compliance by the Licensee reads:</p> <p>Compliance by the Licensee with the obligations referred to in <i>clause 12.1</i> of this Schedule Three is determined:</p> <ol style="list-style-type: none">1) with respect to all of the obligations: once within 45 days of the conclusion of each Water Year;2) with respect to the obligations relating to the Monthly and Annual Volumes: having regard to all of the monthly releases made by the Licensee from Jindabyne Dam over the whole of the relevant Water Year, based on hydrographically corrected data; and3) with respect to the obligations relating to Daily Volumes: having regard to all of the daily releases made by the Licensee from Jindabyne Dam over the whole of the relevant Water Year, based on operational data collected by the Licensee.

Part Five: Snowy Montane Rivers Increased Flows generally

Section	Page number (amended agreement)	Proposed variations
20. Licensee to construct outlet at Tantangara Dam	62	<p>Delete 'Construct' and instead insert 'Operate' to read:</p> <p>20. Licensee to operate outlet at Tantangara Dam</p>
20.1 Licensee to Construct Outlet at Tantangara Dam	62	<p>Delete entire clause and insert instead 'Not Used'.</p>
20.2 Outlet Specifications	62	<p>Delete entire clause and insert instead 'Not Used'.</p>
20.3 Operation of Outlet at Tantangara Dam	63	<p>Delete 'The outlet constructed by the Licensee under clause 20.1 of this Schedule Three' and insert instead 'The Tantangara Dam River Outlet Works specified in the table in clause 2 of Schedule Two to read:</p> <p>The Tantangara Dam River Outlet Works specified in the table in clause 2 of Schedule Two must be operated by the Licensee to selectively withdraw water from the near surface horizon of the reservoir for the water being released for riparian flows and Snowy Montane Rivers Increased Flows made under Part Five of Schedule Three.</p>

Part Six: Snowy Montane Rivers Increased Flows targeted from Tantangara Dam

Section	Page number (amended agreement)	Proposed variations
25.2 Assessing Compliance by the Licensee	67	<p>In subclause 25.2(2) delete ‘releases’ after ‘with respect to the obligations relating to Monthly’ and insert ‘and Annual Volumes’, and</p> <ul style="list-style-type: none"> • In subclause 25.2(2) after ‘over the whole of the relevant Water Year’, insert ‘based on hydrographically corrected data’ • In subclause 25.2(3), delete ‘daily releases’ after ‘with respect to the obligations relating to’ and insert ‘Daily Volumes’. • In subclause 25.2(3) after ‘over the whole of the relevant Water Year’, insert ‘based on operational data collected by the Licensee.’ <p>so that 25.2 Assessing Compliance by the Licensee reads:</p> <p>25.2 Assessing Compliance by the Licensee</p> <p>Compliance by the Licensee with the obligations referred to in clause 25.1 of this Schedule Three is determined:</p> <ol style="list-style-type: none"> 1) with respect to all of the obligations: once within 45 days of the conclusion of each Water Year; 2) with respect to the obligations relating to Monthly and Annual Volumes: having regard to all of the Monthly releases made by the Licensee from Tantangara Dam over the whole of the relevant Water Year, based on hydrographically corrected data; and 3) with respect to the obligations relating to Daily Volumes: having regard to all of the daily releases made by the Licensee from Tantangara Dam over the whole of the relevant Water Year, based on operational data collected by the Licensee.

Schedule Four: Water release requirements

2. The Snowy Scheme and the River Murray

Section	Page number (amended agreement)	Proposed variations
2.1 Water Available to the Snowy–Murray Development	71	<p>Delete ‘PLUS half of the Mowamba Borrowings Account’ and instead insert:</p> <ul style="list-style-type: none"> • Plus the volume (if any) of transfers from the Snowy–Tumut Development during that Water Year under clause 9 of this Schedule Four • Minus the volume (if any) of transfers to the Snowy–Tumut Development during that Water Year under clause 9 of this Schedule Four <p>to read:</p> <p>In this Schedule Four, ‘Water Available to the Snowy–Murray Development’ means:</p> <p>Water of the Upper Snowy River regulated by the Snowy Scheme</p> <ul style="list-style-type: none"> • Plus water of the Geehi River and Bogong Creek regulated by the Snowy Scheme • Plus any Snowy Notional Spill from the Snowy–Tumut Development to the Snowy–Murray Development • Plus the transfer from the Snowy–Tumut Development to the Snowy- Murray Development of any Snowy–Tumut Development Annual Allocation • Plus 4.5 GL per Water Year transferred from the Snowy–Tumut Development to the Snowy–Murray Development • Plus the volume (if any) of transfers from the Snowy–Tumut Development during that Water Year under clause 9 of this Schedule Four • Minus the volume (if any) of transfers to the Snowy–Tumut Development during that Water Year under clause 9 of this Schedule Four • Minus any Snowy Notional Spill from the Snowy–Murray Development to the Snowy–Tumut Development

3. The Snowy Scheme and the Murrumbidgee River

Section	Page number (amended agreement)	Proposed variations
3.1 Water Available to the Snowy Tumut Development	72	<p>Delete ‘Minus half of the Mowamba Borrowings Account’ and instead insert:</p> <ul style="list-style-type: none"> • Plus the volume (if any) of transfers from the Snowy–Murray Development during that Water Year under clause 9 of this Schedule Four • Minus the volume (if any) of transfers to the Snowy–Murray Development during that Water Year under clause 9 of this Schedule Four <p>to read:</p> <p>In this Schedule Four, ‘Water Available to the Snowy–Tumut Development’ means:</p> <p>Water of the Eucumbene River, the Tooma River, the Upper Murrumbidgee River and the Upper Tumut River regulated by the Snowy Scheme</p> <ul style="list-style-type: none"> • Plus any Snowy Notional Spill from the Snowy–Murray Development to the Snowy–Tumut Development • Plus the volume (if any) of transfers from the Snowy–Murray Development during that Water Year under clause 9 of this Schedule Four • Minus the volume (if any) of transfers to the Snowy–Murray Development during that Water Year under clause 9 of this Schedule Four • Minus any Snowy Notional Spill from the Snowy–Tumut Development to the Snowy–Murray Development • Minus the transfer from the Snowy–Tumut Development to the Snowy- Murray Development of the Snowy–Tumut Development Annual Allocation • Minus 4.5 GL per Water Year transferred from the Snowy–Tumut Development to the Snowy–Murray Development

7. Relaxation volume: Snowy–Tumut development

Section	Page number (amended agreement)	Proposed variations
7.1 Relaxation Volume: Snowy Tumut Development	75	After 'where $0 \leq RV \leq$ ', delete '262' and instead insert '226' to read: where $0 \leq RV \leq 226$ and

8. Dry inflow sequence volume

Section	Page number (amended agreement)	Proposed variations
8.1 Dry Inflow Sequence Volume	77	Delete: 'IB = Half the balance in the Mowamba Borrowings Account maintained by the Licensee'

10.1 Ministerial Corporation
May Call Out Releases in
Subsequent Water Year 79

Delete clause 10.1(1) and (2) and **instead insert** to read

10.1 Ministerial Corporation May Call Out Releases in Subsequent Water Year

- 1) With respect to the Snowy–Murray Development – if:
 - c. the maximum Relaxation Volume calculated in a Water Year ('Water Year 1') is greater than 162 GL; and
 - d. the SM Call Out Volume for Water Year 1 is greater than zero;

then the Ministerial Corporation may by notice in writing to the Licensee given not later than 31 August in the following Water Year ('Water Year 2'), require the Licensee to release from the Snowy–Murray Development a volume of water in Water Year 2 that is up to but not exceeding the SM Call Out Volume.

For the purposes of this **clause 10.1** the '**SM Call Out Volume**' is the greater of zero and an amount determined as follows:

MRV – 162 gigalitres – DATWR

where:

- **MRV** = The maximum Relaxation Volume for the Snowy–Murray Development calculated during Water Year 1 under **clause 6** of this **Schedule Four**
- **DATWR** = Discretionary Above-Target Water Releases in Water Year 1, which is calculated as follows:

aggregate releases of Above Target Water from the Snowy–Murray Development in Water Year 1

- **Minus: Within Year Releases:** the volume (if any) of releases, in addition to any other releases referred to in **clause 12.1**, that were required to ensure that the Licensee complies with the within-year release requirements set out in **clause 11** of this **Schedule Four** in Water Year 1
- **Minus: Call Outs:** the volume (if any) released under **clause 10.1** of this **Schedule Four** in Water Year 1
- **Minus:** the volume (if any) of the Snowy–Murray Development Downstream Wet Sequence Protection Volume in Water Year 1

- **Minus: River Murray Drought Releases:** the volume (if any) released under **clause 10.2** of this **Schedule Four** in Water Year 1
- **Minus: River Murray Increased Flows Call Out:** the volume (if any) released under **clause 10.4** of this **Schedule Four** in Water Year 1

2) with respect to the Snowy–Tumut Development – if:

- a. the maximum Relaxation Volume calculated in a Water Year ('Water Year 1') is greater than 126 GL; and
- b. the ST Call Out Volume for Water Year 1 is greater than zero;

then the Ministerial Corporation may by notice in writing to the Licensee given not later than 31 August in the following Water Year ('Water Year 2'), require the Licensee to release from the Snowy–Tumut Development a volume of water in Water Year 2 that is up to but not exceeding the ST Call Out Volume.

For the purposes of this **clause 10.2** the '**ST Call Out Volume**' is the greater of zero and an amount determined as follows:

$$\text{MRV} - 126 \text{ gigalitres} - \text{DATWR}$$

where:

- **MRV** = The maximum Relaxation Volume for the Snowy–Tumut Development calculated during Water Year 1 under clause 6 of this Schedule Four
- **DATWR** = Discretionary Above Target Water Releases in Water Year 1, which is calculated as follows:
 - aggregate releases of Above Target Water from the Snowy–Tumut Development in Water Year 1
 - **Minus: Within Year Releases:** the volume (if any) of releases, in addition to any other releases referred to in **clause 12.2**, that were required to ensure that the Licensee complies with the within-year release requirements set out in **clause 11** of this **Schedule Four** in Water Year 1
 - **Minus: Call Outs:** the volume (if any) released under **clause 10.2** of this **Schedule Four** in Water Year 1
 - **Minus:** the volume (if any) of the Snowy–Tumut Development Downstream Wet Sequence Protection Volume in Water Year 1

Section	Page number (amended agreement)	Proposed variations
		<ul style="list-style-type: none"> • Minus: Murrumbidgee River Drought Releases: the volume (if any) released under clause 10.3 of this Schedule Four in Water Year 1

12B. Riparian releases from Eucumbene Dam

Section	Page number (amended agreement)	Proposed variations
New clause	86	<p>After clause 12A ‘Releases from Tantangara Dam’, insert a new clause to read:</p> <p>12B. Riparian releases from Eucumbene Dam</p> <p>12B.1 Licensee to Make Riparian Releases from Eucumbene Dam</p> <p>In addition to all other releases to be made by the Licensee under this Licence, the Licensee must use reasonable endeavours to release sufficient water to maintain a visible flow in the Eucumbene River at Nimmo. The maximum amount that the Licensee is required to release under this clause is 2.4ML/day.</p>

12C. Riparian releases from Mowamba Weir

Section	Page number (amended agreement)	Proposed variations
New clause	87	<p>After clause 12B ‘Riparian releases from Eucumbene Dam’, insert a new clause to read:</p> <p>12C. Riparian releases from Mowamba Weir</p> <p>12C.1 Licensee to Make Riparian Releases from Mowamba Weir</p> <ol style="list-style-type: none"> 1. In addition to all other releases to be made by the Licensee under this Licence, the Licensee must use reasonable endeavours to continuously release 1.4ML/day (0.5 gigalitres per annum) of water from Mowamba River at the Mowamba Weir. 2. Water released by the Licensee under clause 12C.1 of this Schedule Four is to be accounted as Base Passing Flow into the Snowy River.

Schedule Five: Licensed extractive users within Snowy Water catchment

Section	Page number (amended agreement)	Proposed variations
Schedule Five: licenced extractive users within Snowy Water catchment	104	<p>Delete ‘Licensed extractive users within Snowy Water catchment’ and instead insert ‘Not Used’ to read:</p> <p>Schedule Five Not Used</p>
Table 1: Within Kosciusko National Park	104	<p>Delete entire table.</p>

Section	Page number (amended agreement)	Proposed variations
Table 2: Within Kosciusko National Park—Unlicensed	105	Delete entire table.
Table 3: Caravan Parks—Licensed	106	Delete entire table.
Table 4: Caravan Parks—Unlicensed	106	Delete entire table.
Table 5: Other Private Licence Holders—Licensed	106	Delete entire table.
Table 6: Private Holdings—Unlicensed	107	Delete entire table.
Table 7: Snowy River Shire Council	108	Delete entire table.
