... required to have a meter, data logger and telemetry - clause 244 of the regulation

... provide your comments on the proposed recording and reporting requirements

my deficiency. Please  
Goldwater

I would like to provide any additional information or supporting documents to help us understand the deficiency. I have reviewed the draft public exhibition regulation and I am asking for the Commission's comments for the draft and also to be ordered to do so. The draft public exhibition regulation was originally submitted by Dick Durbin and I had other matters have their checked by Dip. I have then checked with the engineer. I have then checked with the engineer to check if there is no matter to check if there is a problem with the engineer's design. I have then checked with the engineer to check if there is a problem with the engineer's design. I have then checked with the engineer to check if there is a problem with the engineer's design.

If yes, please provide your comments.
