

Eden Breakwater Wharf Extension Project

Community update—November 2017

Jointly funded by the Australian Government, New South Wales Government and Bega Valley Shire Council, the \$44 million Eden Breakwater Wharf Extension Project is an important multi-government initiative to drive economic growth in the region.

Dredging completed

Heron Construction have finished dredging and the dredge, along with the two barges and accompanying tugs have left Eden.

Scour protection ongoing

Fabrication of the scour protection is continuing. The placement of the scour protection on the seabed will start once dredging has been completed and will use a barge-mounted crane operating adjacent to the wharf. Installation of the scour protection is scheduled to be completed by March 2018, weather permitting.

Marine structures tender awarded

Waterway Constructions Pty Ltd has been awarded the tender for the marine structures contract. This work entails:

- an extension of the existing breakwater wharf to a length of 110 metres
- installation of three mooring dolphins and two berthing dolphins
- installation of three new land side mooring bollards within the current breakwater wharf area
- installation of minor services including lighting, power, potable water and navigation aids.

Waterway Constructions Pty Ltd is scheduled to commence work in March 2018.

Local industry participation

Local businesses and individuals who are interested in obtaining work on the project should contact the Industry Capability Network (ICN) Illawarra/South East Region (www.icngateway.org.au). ICN is a business network that introduces Australian companies to projects large and small. ICN is an independent organisation financially supported by state governments. ICN can be contacted directly by telephone 0427 000 719 or email whirsch@icnsw.org.au
