

Floodplain
harvesting

BROKEN HILL
SESSION 2013

How to use this form

Where your comments relate to a specific question, we would appreciate your noting the consultation question you are responding to.

Remove all illegal works
Fine people who are taking illegally
→ eg. broken meters.

No meter for harvestable rights
Permanent plantings at Menindee gone.

No floodplain harvesting for anyone above
harvestable rights

Get rivers that feed the Darling - feed the
Darling and keep a healthy river
system

Want fresh flushes down the Darling
→ not polluted water from cotton growers.

Not equitable - if you take too many fish you
get fined but you can let
millions of fish die because the water
doesn't get there

There is no way anyone should allow the river to
stop flowing

Flood plain harvesting don't agree with carryover

Thank you for your interest in the water reform consultation process.

Please hand your submission to one of our staff.

How to use this form

Where your comments relate to a specific question, we would appreciate your noting the consultation question you are responding to.

Should have the right people at the consultation process - Minister

Evaporation statistics not accurate - I've locally
=> if you lost that much water out of the lakes you would see it receding

Metering - everyone should be metered

Floodplain harvesting - cotton growers shouldn't be allowed to floodplain harvest

Thank you for your interest in the water reform consultation process.
