

1 July 2018

Full allocations for Bellinger water users

The NSW Department of Industry today announced available water determinations for water users in the Bellinger unregulated and alluvial water sources for the new 2018-19 water year, commencing on 1 July 2018.

Domestic and stock and local water utility access licence holders receive a full allocation of 100 per cent of entitlement.

In addition, Bellinger unregulated river access licence holders and aquifer access licence holders also receive a full allocation of 1 megalitre per unit share.

Additional information on available water determinations can be found on the NSW Department of Industry website at - www.industry.nsw.gov.au/water
