

1 July 2018

Allocations for North Coast groundwater users

The NSW Department of Industry today announced available water determinations for North Coast fractured and porous rock groundwater users for the new 2018-19 water year, commencing 1 July 2018.

Local water utility and aquifer access licence holders covered by the North Coast fractured and porous rock water sharing plan receive an allocation of 100 per cent of entitlement or 1 megalitre per unit share.

Water sources covered by this plan include Alstonville Basalt Plateau, Bulaheleh Sandstone, Clarence Moreton Basin, Comboyne Basalt, Dorrigo Basalt, Gloucester Basin, Kulnura Mangrove Mountain, Liverpool Range Basalt Coast, Lorne Basin, New England Fold Belt Coast, North Coast Volcanics, Oxley Basin Coast and Sydney Basin-North Coast.

Additional information on available water determinations can be found on the NSW Department of Industry website at - www.industry.nsw.gov.au/water
