

1 July 2017

Water allocations for the Lower Murrumbidgee groundwater sources

DPI Water today announced available water determinations for the Lower Murrumbidgee groundwater source for the new 2017/18 water year, beginning 1 July 2017.

The allocation for local water utility and domestic and stock in both the Lower Murrumbidgee shallow and deep groundwater sources is 100 per cent of entitlement.

Aquifer water access licence holders in both the Lower Murrumbidgee shallow and deep groundwater sources will receive 1 megalitre per unit share of entitlement.

Information on available water determinations is available on the DPI Water website - www.water.nsw.gov.au
