

## Rules summary sheet Bakers Creek water source

<b>Water sharing plan</b>	Gwydir Unregulated and Alluvial Water Sources
<b>Plan commencement</b>	3 August 2012
<b>Term of the plan</b>	10 years

### Rules summary

The following rules are a guide only. For more information about your actual licence conditions please call the DPI Water, Moree on (02) 6757 2500.

### Access rules

#### Access rules for rivers and creeks

<b>Cease to pump</b>	<p>Pumping is not permitted from natural pools when the water level in the pool is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Natural pools include in-river pools found within the channels of rivers and creeks and off-river pools located on flood runners, floodplains and effluents e.g. lakes, lagoons and billabongs.</p> <p><b>Note:</b> For pump sites not within an in-river pool, the cease to pump rule is when there is no visible flow at that pump site.</p>
<b>Reference point</b>	Individual natural pool

#### Access rules for natural off-river pools

<b>Cease to pump</b>	<p>Pumping is not permitted when the water level in the pool where the water is being taken from is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Off-river pools include those natural pools located on flood runners or floodplains, or an effluent that only commences to flow during high</p>
<b>Reference point</b>	Individual off-river pool

#### Access rules

**Note:**

- These access rules do not apply if the existing *Water Act 1912* entitlement had more stringent access licence conditions. These existing conditions will be carried forward under the plan and are included in clause 43(6) and the associated Appendix 4.
- These access rules do not apply to:
  - Local Water Utility access licences;
  - Unregulated River (Town Water Supply) access licences;
  - Stock and Domestic (Stock) licences until 3 August 2017 (provided that extraction for stock purposes does not exceed 14 litres per hectare of grazeable area per day);
  - Stock and Domestic (Domestic) licences providing that the volume of water does not exceed 1 KL per house per day;
  - Water taken from run-off harvesting dams or in-river dams;

- Water taken under a licence listed under clause 43(13) and the associated Schedule 3 for any of the following purposes not exceeding 20 KL/day;
    - fruit washing,
    - cleaning of dairy plant and equipment for the purpose of hygiene,
    - poultry watering and misting, or
    - cleaning of enclosures used for intensive animal production for the purposes of hygiene.
- 3. On application, access licences may be granted exemption to the rule for natural off-river pools if they can demonstrate historical access to a pool below 100% of its full containment volume.

<b>Trading rules</b>	
<b>INTO water source</b>	Not permitted.
<b>WITHIN water source</b>	Trades are permitted, subject to assessment.

**More information** about the planning process for the Gwydir Unregulated and Alluvial Water Sources is available at the DPI Water website [www.water.nsw.gov.au](http://www.water.nsw.gov.au).

## Rules summary sheet Gingham Watercourse water source

Water sharing plan	Gwydir Unregulated and Alluvial Water Sources
Plan commencement	3 August 2012
Term of the plan	10 years

### Rules summary

The following rules are a guide only. For more information about your actual licence conditions please call the DPI Water, Moree on (02) 6757 2500.

### Access rules

#### Upper Gingham Watercourse management zone

##### Access rules for rivers and creeks

Cease/commence to pump	Very Low Flow Class	Users must cease to pump when the flow at the reference point is less than or equal to 250 ML/day.
	A Class	Users can commence to pump when the flow at the reference point is more than 250 ML/day.
	Planned Environmental Water Class	Users can commence to pump when the flow at the reference point is more than the announced environmental water flow in ML/day.
Reference point	Gingham Channel at Tillaloo gauge (418076)	

##### Access rules for natural off-river pools

Cease to pump	<p>Pumping is not permitted when the water level in that natural off-river pool is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Natural off-river pools include those pools located on flood runners, floodplains and effluents e.g. lakes, lagoons and billabongs.</p>	
Reference point	Individual natural off-river pool	

#### Lower Gingham Watercourse management zone

##### Access rules for rivers and creeks

Cease/commence to pump	Very Low Flow Class	Users must cease to pump when the flow at the reference point is less than or equal to the minimal flow depth of 1.0 metre on the Gingham Bridge gauge (418079) or less than or equal to 4000 ML/year at the Gingham Bridge gauge or no visible flow at the Gingham Watercourse at Morialta Road.
	A Class	Users can commence to pump when the flow at the reference point is more than the minimal flow depth of 1.0 metre on the Gingham Bridge gauge (418079) and more than 4000 ML/year at the Gingham Bridge

		gauge and a visible flow at the Gingham Watercourse at Morialta Road.
	Planned Environmental Water Class	Users can commence to pump when the flow at the reference point is more than the announced environmental water flow in ML/day.
<b>Reference point</b>	Gingham channel at Gingham Bridge gauge (418079) and Gingham Watercourse at Morialta Road	
<b>Access rules for natural off-river pools</b>

## Rules summary sheet Gwydir water source

Water sharing plan	Gwydir Unregulated and Alluvial Water Sources
Plan commencement	3 August 2012
Term of the plan	10 years

### Rules summary

The following rules are a guide only. For more information about your actual licence conditions please call the DPI Water, Moree on (02) 6757 2500.

### Access rules

#### Access rules for rivers and creeks

Cease/commence to pump	Very Low Flow Class	Users must cease to pump when the flow at the reference point is less than or equal to 250 ML/day.
	A Class	Users can commence to pump when the flow at the reference point is more than 250 ML/day.
	Planned Environmental Water Class	Users can commence to pump when the flow at the reference point is more than the announced environmental water flow in ML/day.
Reference point	Gwydir River at Millewa Gauge (418066)	

#### Access rules for natural off-river pools

Cease to pump	<p>Pumping is not permitted when the water level in that natural off-river pool is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Natural off-river pools include those pools located on flood runners, floodplains and effluents e.g. lakes, lagoons and billabongs.</p>
Reference point	Individual natural off-river pool

#### Access rules

**Note:**

- These access rules do not apply if the existing *Water Act 1912* entitlement had more stringent access licence conditions. These existing conditions will be carried forward under the plan and are included in clause 43(6) and the associated Appendix 4.
- These access rules do not apply to:
  - Local Water Utility access licences;
  - Unregulated River (Town Water Supply) access licences;
  - Stock and Domestic (Stock) licences until 3 August 2017 (provided that extraction for stock purposes does not exceed 14 litres per hectare of grazeable area per day);
  - Stock and Domestic (Domestic) licences providing that the volume of water does not exceed 1 KL per house per day;
  - Water taken from run-off harvesting dams or in-river dams;
  - Water taken under a licence listed under clause 43(13) and the associated Schedule 3 for any of the following purposes not exceeding 20 KL/day;

<ul style="list-style-type: none"> <li>○ fruit washing,</li> <li>○ cleaning of dairy plant and equipment for the purpose of hygiene,</li> <li>○ poultry watering and misting, or</li> <li>○ cleaning of enclosures used for intensive animal production for the purposes of hygiene.</li> </ul> <p>3. On application, access licences may be granted exemption to the rule for off-river pools if they can demonstrate historical access to a pool below 100% of its full containment volume.</p>

## Rules summary sheet Millie Creek water source

<b>Water sharing plan</b>	Gwydir Unregulated and Alluvial Water Sources
<b>Plan commencement</b>	3 August 2012
<b>Term of the plan</b>	10 years

### Rules summary

The following rules are a guide only. For more information about your actual licence conditions please call the DPI Water, Moree on (02) 6757 2500.

### Access rules

#### Access rules for rivers and creeks

<b>Cease to pump</b>	<p>Pumping is not permitted from natural pools when the water level in the pool is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Natural pools include in-river pools found within the channels of rivers and creeks and off-river pools located on flood runners, floodplains and effluents e.g. lakes, lagoons and billabongs.</p> <p><b>Note:</b> For pump sites not within a natural pool, the cease to pump rule is when there is no visible flow at that pump site.</p>
<b>Reference point</b>	Individual natural pool

#### Access rules for natural off-river pools

<b>Cease to pump</b>	<p>Pumping is not permitted when the water level in that natural off-river pool is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Natural off-river pools include those pools located on flood runners, floodplains and effluents e.g. lakes, lagoons and billabongs.</p>
<b>Reference point</b>	Individual natural off-river pool

#### Access rules

**Note:**

- These access rules do not apply if the existing *Water Act 1912* entitlement had more stringent access licence conditions. These existing conditions will be carried forward under the plan and are included in clause 43(6) and the associated Appendix 4.
- These access rules do not apply to:
  - Local Water Utility access licences;
  - Unregulated River (Town Water Supply) access licences;
  - Stock and Domestic (Stock) licences until 3 August 2017 (provided that extraction for stock purposes does not exceed 14 litres per hectare of grazeable area per day);
  - Stock and Domestic (Domestic) licences providing that the volume of water does not exceed 1 KL per house per day;
  - Water taken from run-off harvesting dams or in-river dams;

- Water taken under a licence listed under clause 43(13) and the associated Schedule 3 for any of the following purposes not exceeding 20 KL/day;
    - fruit washing,
    - cleaning of dairy plant and equipment for the purpose of hygiene,
    - poultry watering and misting, or
    - cleaning of enclosures used for intensive animal production for the purposes of hygiene.
- 3. On application, access licences may be granted exemption to the rule for off-river pools if they can demonstrate historical access to a pool below 100% of its full containment volume.

<b>Trading rules</b>	
<b>INTO water source</b>	Not permitted.
<b>WITHIN water source</b>	Trades are permitted, subject to assessment.

<b>Reference point</b>	Individual natural pool

#### Access rules for natural off-river pools

<b>Cease to pump</b>	<p>Pumping is not permitted when the water level in that natural off-river pool is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Natural off-river pools include those pools located on flood runners, floodplains and effluents e.g. lakes, lagoons and billabongs.</p>
<b>Reference point</b>	Individual natural off-river pool

### Access rules

#### Note:

- These access rules do not apply if the existing *Water Act 1912* entitlement had more stringent access licence conditions. These existing conditions will be carried forward under the plan and are included in clause 43(6) and the associated Appendix 4.
- These access rules do not apply to:
  - Local Water Utility access licences;
  - Unregulated River (Town Water Supply) access licences;
  - Stock and Domestic (Stock) licences until 3 August 2017 (provided that extraction for stock purposes does not exceed 14 litres per hectare of grazeable area per day);
  - Stock and Domestic (Domestic) licences providing that the volume of water does not exceed 1 KL per house per day;
  - Water taken from run-off harvesting dams or in-river dams;

<ul style="list-style-type: none"> <li>▪ Water taken under a licence listed under clause 43(13) and the associated Schedule 3 for any of the following purposes not exceeding 20 KL/day; <ul style="list-style-type: none"> <li>○ fruit washing,</li> <li>○ cleaning of dairy plant and equipment for the purpose of hygiene,</li> <li>○ poultry watering and misting, or</li> <li>○ cleaning of enclosures used for intensive animal production for the purposes of hygiene.</li> </ul> </li> </ul>
3. On application, access licences may be granted exemption to the rule for off-river pools if they can demonstrate historical access to a pool below 100% of its full containment volume.

<b>Trading rules</b>	
<b>INTO water source</b>	Not permitted.
<b>WITHIN water source</b>	Not permitted.

**More information** about the planning process for the Gwydir Unregulated and Alluvial Water Sources is available at the DPI Water website [www.water.nsw.gov.au](http://www.water.nsw.gov.au).

## Rules summary sheet Upper Gwydir Alluvial groundwater source

<b>Water sharing plan</b>	Gwydir Unregulated and Alluvial Water Sources
<b>Plan commencement</b>	3 August 2012
<b>Term of the plan</b>	10 years

### Rules summary

The following rules are a guide only. For more information about your actual licence conditions please call the DPI Water, Moree on (02) 6757 2500.

### Limits to the availability of water

<b>Available water determinations</b>	Available water determinations (AWDs) will be made at the start of each water year for: <ul style="list-style-type: none"> <li>Stock and domestic, local and major water utilities and specific purpose access licences – 100 per cent of share component.</li> <li>Aquifer (high security) access licences – 0.3 ML per unit of aquifer (high security) access licence share component plus 70% of the available water determination for regulated river (high security) access licences in the Gwydir Regulated River or lower amount as results from a growth in extractions response.</li> </ul>
<b>Assessment of extraction against the long-term average annual extraction limit</b>	Growth in extractions will be assessed against the long-term average annual extraction limit (721 ML/year) over a 5 year period with a 10 per cent tolerance. Assessments will commence in the sixth year of the plan (2017-2018).

### Rules for granting access licences

<b>Granting of access licences</b>	Granting of access licences may be considered for the following categories: <ul style="list-style-type: none"> <li>Specific purpose access licences under the <i>Water Management (General) Regulation 2011</i> including local water utility, major water utility, domestic and stock and town water supply</li> <li>Aquifer (Aboriginal cultural) access licences, up to 10 ML/year</li> <li>Controlled allocation licences</li> </ul>
------------------------------------	--

### Rules for managing access licences

<b>Carryover</b>	No carryover of account water from one water year to the next.
------------------	--

### Trading rules

<b>INTO groundwater source</b>	Not permitted.
<b>WITHIN groundwater source</b>	Permitted.

<b>Conversion to another category of access licence</b>	Not permitted.
---	----------------

<b>Rules for water supply works approvals</b>	
<b>Rules to minimise interference between bores</b>	<p>No water supply works (bores) to be granted or amended within the following distances of existing bores:</p> <ul style="list-style-type: none"> <li>• 200 m from an aquifer access licence bore on another landholding.</li> <li>• 200 m from a basic landholder rights bore on another landholding.</li> <li>• 500 m from a local or major water utility access licence bore.</li> <li>• 100 m from an Department monitoring bore.</li> <li>• 100 m from a property boundary.</li> </ul> <p>The plan lists circumstances in which these distance conditions may be varied.</p>
<b>Rules for bores located near contamination sources</b>	<p>No water supply works (bores) to be granted or amended within:</p> <ul style="list-style-type: none"> <li>• 250 m of the plume associated with a contamination source as identified within the plan, or</li> <li>• a distance greater than 500 m of the plume associated with a contamination source as identified within the plan if necessary to protect the groundwater source, the environment or public health or safety.</li> </ul> <p>The plan lists circumstances in which these distance conditions may be varied and exemptions from these rules.</p>
<b>Rules for bores located near sensitive environmental areas</b>	<p>No water supply works (bores) within the following distances of high priority groundwater dependent ecosystems (GDE) listed in the plan:</p> <ul style="list-style-type: none"> <li>• A distance of 100 m if the bore is used solely to supply basic landholder rights.</li> <li>• A distance of 200 m if the bore is used to supply water <b>not</b> used solely for basic landholder rights.</li> <li>• A distance of greater than 200 m if the bore is likely to cause drawdown at the perimeter of any GDE system.</li> </ul> <p>The plan lists circumstances in which these distance conditions may be varied and exemptions from these rules.</p>
<b>Rules for bores located near groundwater dependent culturally significant sites</b>	<p>No water supply works (bores) to be granted or amended within the following distances of groundwater dependent cultural significant sites:</p> <ul style="list-style-type: none"> <li>• 100 m for basic landholder rights bores.</li> <li>• 200 m for bores not used solely for extracting basic landholder rights.</li> </ul> <p>The plan lists circumstances in which these distance conditions may be varied and exemptions from these rules.</p>
<b>Rules for existing bores located within restricted distances</b>	<p>Existing water supply works (bores) can continue extraction of groundwater (up to maximum allowed from that bore at the start of the plan) within any of the distance restrictions listed above.</p>
<b>Rules to manage local impacts</b>	<p>The <i>Water Management Act 2000</i> provides for the Minister to prohibit or restrict the taking of water from a groundwater source in order to manage local impacts where required to:</p> <ul style="list-style-type: none"> <li>• maintain or protect water levels in an aquifer.</li> <li>• maintain, protect or improve the quality of water in an aquifer.</li> <li>• prevent land subsidence or compaction in an aquifer.</li> <li>• protect groundwater dependent ecosystems.</li> <li>• maintain pressure, or to ensure pressure recovery, in an aquifer.</li> </ul>

**More information** about the planning process for the Gwydir Unregulated and Alluvial Water Sources is available at the DPI Water website [www.water.nsw.gov.au](http://www.water.nsw.gov.au).

## Rules summary sheet Upper Gwydir River water source

<b>Water sharing plan</b>	Gwydir Unregulated and Alluvial Water Sources
<b>Plan commencement</b>	3 August 2012
<b>Term of the plan</b>	10 years

### Rules summary

The following rules are a guide only. For more information about your actual licence conditions please call the DPI Water, Moree on (02) 6757 2500.

### Access rules

#### Access rules for rivers and creeks

<b>Cease to pump</b>	<p>Pumping is not permitted from natural pools when the water level in the pool is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Natural pools include in-river pools found within the channels of rivers and creeks and off-river pools located on flood runners, floodplains and effluents e.g. lakes, lagoons and billabongs.</p> <p><b>Note:</b> For pump sites not within a natural pool, the cease to pump rule is when there is no visible flow at that pump site.</p>
<b>Reference point</b>	Individual natural pool

#### Access rules for natural off-river pools

<b>Cease to pump</b>	<p>Pumping is not permitted when the water level in that natural off-river pool is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Natural off-river pools include those pools located on flood runners, floodplains and effluents e.g. lakes, lagoons and billabongs.</p>
<b>Reference point</b>	Individual natural off-river pool

### Access rules

#### Note:

- These access rules do not apply if the existing *Water Act 1912* entitlement had more stringent access licence conditions. These existing conditions will be carried forward under the plan and are included in clause 43(6) and the associated Appendix 4.
- These access rules do not apply to:
  - Local Water Utility access licences;
  - Unregulated River (Town Water Supply) access licences;
  - Stock and Domestic (Stock) licences until 3 August 2017 (provided that extraction for stock purposes does not exceed 14 litres per hectare of grazeable area per day);
  - Stock and Domestic (Domestic) licences providing that the volume of water does not exceed 1 KL per house per day;
  - Water taken from run-off harvesting dams or in-river dams;

<ul style="list-style-type: none"> <li>▪ Water taken under a licence listed under clause 43(13) and the associated Schedule 3 for any of the following purposes not exceeding 20 KL/day; <ul style="list-style-type: none"> <li>○ fruit washing,</li> <li>○ cleaning of dairy plant and equipment for the purpose of hygiene,</li> <li>○ poultry watering and misting, or</li> <li>○ cleaning of enclosures used for intensive animal production for the purposes of hygiene.</li> </ul> </li> </ul>
3. On application, access licences may be granted exemption to the rule for off-river pools if they can demonstrate historical access to a pool below 100% of its full containment volume.

<b>Trading rules</b>	
<b>Gwydir River trading zone</b>	
<b>INTO trading zone</b>	Not permitted.
<b>WITHIN trading zone</b>	Trades are permitted, subject to assessment.
<b>Upper Gwydir River tributaries trading zone</b>	
<b>INTO trading zone</b>	Not permitted.
<b>WITHIN trading zone</b>	Trades are permitted, subject to assessment.

**More information** about the planning process for the Gwydir Unregulated and Alluvial Water Sources is available at the DPI Water website [www.water.nsw.gov.au](http://www.water.nsw.gov.au).

## Rules summary sheet Upper Horton Management Zone

<b>Water sharing plan</b>	Gwydir Unregulated and Alluvial Water Sources
<b>Plan commencement</b>	3 August 2012
<b>Term of the plan</b>	10 years

### Rules summary

The following rules are a guide only. For more information about your actual licence conditions please call the DPI Water, Moree on (02) 6757 2500.

### Access rules

#### Access rules for rivers and creeks

<b>Cease to pump</b>	No visible flow
<b>Reference point</b>	Individual pump site

#### Access rules for natural off-river pools

<b>Cease to pump</b>	<p>Pumping is not permitted when the water level in the pool where the water is being taken from is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Off-river pools include those natural pools located on flood runners or floodplains, or an effluent that only commences to flow during high</p>
<b>Reference point</b>	Individual natural off-river pool

### Access rules

#### Note:

- Flow classes will remain as per those established in original water sharing plan to be implemented at the discretion of the Minister.
- These access rules do not apply to:
  - Local Water Utility access licences;
  - Unregulated River (Town Water Supply) access licences;
  - Stock and Domestic (Stock) licences until 3 August 2017 (provided that extraction for stock purposes does not exceed 14 litres per hectare of grazeable area per day);
  - Stock and Domestic (Domestic) licences providing that the volume of water does not exceed 1 KL per house per day;
  - Water taken from run-off harvesting dams or in-river dams;
  - Water taken under a licence listed under clause 43(13) and the associated Schedule 3 for any of the following purposes not exceeding 20 KL/day;
    - fruit washing,
    - cleaning of dairy plant and equipment for the purpose of hygiene,
    - poultry watering and misting, or
    - cleaning of enclosures used for intensive animal production for the purposes of hygiene.
- On application, access licences may be granted exemption to the rule for off-river pools if they can demonstrate historical access to a pool below 100% of its full containment volume.

<b>Trading rules</b>	
<b>INTO water source</b>	Not permitted.
<b>INTO management zone</b>	Not permitted.
<b>WITHIN management zone</b>	Permitted, subject to assessment.
