Government

Exemption from metering conditions

under the

Water Management Act 2000

I, Jim Bentley, by delegation from the Minister administering the *Water Management Act 2000*, make this exemption.

A handwritten signature in blue ink, appearing to read 'Jim Bentley'.

Dated

16/03/21

JIM BENTLEY
Deputy Secretary, Water
Department of Planning, Industry and Environment
By delegation

Explanatory note

The purpose of this exemption is to provide that water users currently subject to various metering conditions imposed by water sharing plan provisions:

- (a) who installed a meter before commencement of this exemption, have until the expiry of the applicable temporary exemption under clause 230 of the *Water Management (General) Regulation 2018* to install an AS4747 compliant meter,
- (b) who have not installed a meter before commencement of this exemption, have until 1 December 2021 to install an AS4747 compliant meter and comply with the other applicable requirements of the new non-urban water metering rules imposed by the NSW Non-urban metering framework.

Those conditions provide that certain metering requirements must be complied with, unless exempted by the Minister.

Exemption from metering conditions imposed under water sharing plans in the Lachlan, Murrumbidgee, Hunter, Richmond and Murray and Lower Darling Water Sources 2021

under the

Water Management Act 2000

1 Name of Exemption

This Exemption is the *Exemption from metering conditions imposed under water sharing plans in the Lachlan, Murrumbidgee, Hunter, Richmond and Murray and Lower Darling Water Sources 2021*.

2 Commencement

This Exemption commences on the day on which it is executed.

3 Interpretation

(1) In this Exemption:

Mandatory condition means one or more conditions imposed on a water supply work approval pursuant to the following:

- (a) clause 66(1)(b) of the *Water Sharing Plan for the Lachlan Regulated River Water Source 2016*,
- (b) clause 81(1)(b) of the *Water Sharing Plan for the Murrumbidgee Regulated River Water Source 2016*,
- (c) clause 67(1)(a) of the *Water Sharing Plan for the Hunter Regulated River Water Source 2016*,
- (d) clause 82(1)(b) of the *Water Sharing Plan for the Richmond River Area Unregulated, Regulated and Alluvial Water Sources 2010*, and
- (e) clause 66(1)(b) of the *Water Sharing Plan for the New South Wales Murray and Lower Darling Regulated Rivers Water Sources 2016*.

(2) A reference in this Exemption to a provision of a water sharing plan includes a reference to a provision of an expired water sharing plan which corresponds (or substantially corresponds) to that provision of the water sharing plan.

4 Exemption

- (1) All holders of a water supply work approval subject to a mandatory condition are exempt from the requirement under that condition to install metering equipment until 1 December 2021.
- (2) All holders of a water supply work approval subject to a mandatory condition are exempt from the requirement to install metering equipment that complies with *Australian Standard AS 4747, Meters for non-urban water supply* (as updated or amended from time to time) if:
 - (a) a meter is installed for the work,
 - (b) the meter was installed prior to or on the date this Exemption commenced, and
 - (c) the meter accurately measures and records the flow of all water taken through the water supply work.
- (3) For the avoidance of doubt, nothing in subclause 4(2) of this Exemption affects any other obligation in relation to a meter imposed by a mandatory condition.
