

Water Sharing Rules

Barragoot Lake Tributaries Water Source

Water Sharing Plan	Murrumbidgee Area Unregulated and Alluvial Water Sources
Plan Commencement Date	17 December 2010
Term of the Plan	10 years

Rules Summary

The following rules are a guide only. For more information about your actual Licence conditions, please contact the NSW Office of Water, phone (02) 4429 4444.

Access Rules

Cease to Pump / Commence to Pump	Cease to Pump (CtP) once there is no visible flow at the pump site, or where water is being taken from a pool, once there is no inflow to, or outflow from, the pool; Commence to Pump once there is flow at the pump site, or where water is being taken from a pool, once there is inflow to, and outflow from, the pumping pool.
Reference Point	Pump site or the inflow and outflow of the pumping pool.
First flush	If flows have not exceeded the CtP level for a period of 30 consecutive days, water may not be taken for a period of 12 hours after flows have exceeded the CtP level.

Note: These rules will apply to aquifer access licences extracting from alluvial sediments from year six of the plan, except licences for unaugmented local water utilities, food safety or essential daily care. Aquifer access licences issued following the commencement of the plan will be subject to these rules immediately. Aquifer extractions for stock and domestic use will not require access licences and will not be subject to the above rules.

Trading rules

INTO Water Source	Not permitted
WITHIN Water Source	Not applicable

Conversions

Conversion to High Flow Access	Not permitted
Aboriginal Community Development Licences	Not permitted
