Enter text below or upload a document: I entirely reject a framework which does not include the recommendations made by Mr Ken Matthews AO and the MDB Compliance Review. 'Universal' metering is the only way to protect planned environmental water as identified in Water Sharing Plans. It is also the only way to protect basic rights and downstream water users. Without it, in my opinion, the framework is useless. I endorse the IRN submission on this subject at <https://irrnsw.files.wordpress.com/2018/05/180413-submission-water-take-measurement-and-metering-in-nsw.pdf> Yours sincerely Sarah Moles
