Email	[REDACTED]
Are you an individual or representing an organisation?	Individual
Proposed changes to recording and reporting requirements	
The draft public exhibition regulation includes proposed changes to the recording and reporting mandatory conditions. Do you have any comments on the recording and reporting requirements?	No
Draft public exhibition regulation	
Do you have any other comments on the draft public exhibition regulation?	Yes
If yes, please provide your comments.	For data loggers, it is unreasonable to expect farmers to install a logger now to meet the current requirement to have one fitted only for them to have to do so again when the list of approved loggers is published. This is placing an economic and time impost due to the government's regulations while the relevant government body has not done its part. Loggers are not cheap, and having a DQP install/validate again is a double hit. Remember that nearly all farmers are suffering financially and personally due to the relentless drought. Please adopt a more reasonable position on this.
